Our Ref: Safety Campaign 2010

23 June 2010

IMPA NOTICE NO 825

(EMPA Members receive this Notice for Information Only)

Dear Colleagues

2010 Pilot Ladder Safety Campaign

IMO's NAV55 Report to the Maritime Safety Committee requested IMPA to provide detailed information to the DE and NAV Sub-Committees on specific non-SOLAS compliant ladders our members have been asked to climb. Therefore, in co-operation with EMPA, IMPA will be running a Safety Campaign from the **19th -25th September 2010**.

This campaign will be web-based and survey forms will be downloadable from www.safetycampaign.impahq.org. Submissions should be made directly onto the website.

Please copy this and circulate as many as possible to your members in time for the start of the campaign. Associations using carry-aboards/PPUs might also like to consider putting a prompt on the software to remind members of the need to report on ladders during the campaign period.

A further reminder will be sent nearer the date.

Yours sincerely

Nick Cutmore
Secretary General
